SUMMARY QA Leader with 5+ years of experience in automation testing (Katalon, Selenium) and end-to-end project implementation. Proven track record in optimizing testing processes and leading cross-functional teams in healthcare and distribution management systems. My skills include analytical thinking, time management, negotiation, and technical skills such as Database Management, Data Analysis, and Automation Testing. I enjoy embracing new challenges and am open to change. One of my achievements includes introducing automation testing into the company, which has been utilized for automated testing.

CAREER HISTORY

- **Quality Assurance Team Leader (Automation Testing)**

PT Paramadaksa Teknologi Nusantara (nexSOFT)

Dec 2020 - Present

- Built and mentored a 5-member automation team, establishing Katalon Studio best practices that increased test automation coverage to 70%, cutting regression time by 8 hours/sprint.
- Architected CI/CD integration for automated scripts, enabling shift-left testing with 90% critical feature coverage.
- Designed modular automation frameworks for WEB/Mobile/API testing, reducing script maintenance effort.
- Partnered with product teams to identify and automate key DMS processes, reducing manual errors and improving system efficiency.
- Acted as the primary business process consultant for DMS applications, leveraging deep system knowledge and bridge gaps between engineering teams and business users through clear process documentation.

- **Quality Assurance Team Leader (Manual Testing)**

PT Paramadaksa Teknologi Nusantara (nexSOFT)

Oct 2019 - Dec 2020 (1 years 3 months)

- Directed a team of manual testers in designing and executing comprehensive test case scenarios for web/mobile applications, ensuring thorough pre-release validation.
- Oversaw end-to-end bug validation, including reproduction, prioritization, and collaboration with developers to expedite resolutions.
- Bridged technical and business teams for DMS applications by translating requirements into test cases and optimizing workflows.
- Introduced structured test documentation, streamlining team onboarding and ensuring testing consistency.

- **Consultant System**

PT Paramadaksa Teknologi Nusantara (nexSOFT)

Jul 2017 - Oct 2019 (2 years 4 months)

- Led end-to-end implementation of Distribution Management System (DMS) for clients, ensuring successful deployment and adoption.
- Translated client business needs into technical requirements while managing feature requests and customizations.

- Conducted user training and created system documentation to facilitate smooth transitions.

- **System Analyst and Application Support**

PT. Solusi Informasi Medika

Jul 2013 - Dec 2016 (3 years 6 months)

- Project Manager for HIS MedicOS at Siloam Labuan Bajo (2016): Directed cross-functional implementation from planning to go-live, aligning system functionality with clinical workflows..
- Developed automated testing solutions using Selenium, Visual Studio .NET and SQL Server (2015), reducing manual validation efforts
- Acting Project Manager for Siloam Kupang (2014): Ensured on-time system deployment through effective team coordination.
- System Implementation: Deployed HIS MedicOS solutions across 5+ healthcare facilities including: Siloam Hospitals (Samarinda, Jogjakarta, Medan, Simatupang) and Siloam Clinic Cikarang.

- **IT Staff**

Kanaan Global School

Apr 2012 - Jun 2013 (1 years 3 months)

- Conducted regular computer maintenance.
- Performed computer troubleshooting.
- Managed networking.
- Updated website content.
- Updated school payment applications (Visual Basic 6 and SQL Server 2000)

- **IT and HR Staff**

Yayasan Pendidikan Charitas

Apr 2010 - Apr 2012 (2 years 1 months)

- IT Staff
 - Managed end-to-end IT support including system maintenance, troubleshooting, and network administration.
 - Developed school payment applications using Visual Basic 6 and SQL Server 2000
 - Maintained and updated organizational website content.
- HR Staff
 - Prepared payroll reports and Generated monthly/annual tax reports.

SKILLS

- | | |
|-------------------------------------|--------------------------|
| - Project Management Office (PMO) | - Project Implementation |
| - Team & Management Skills | - Analytical Thinking |
| - Quality Assurance (Manual & Auto) | - QA Automation |
| - Katalon Studio | - Selenium Automation |
| - Test Case Design | - Systems Analysis |
| - Problem-Solving Skills | - SQL Query Language |
